Net investment income (loss)	2.60 %

- (a) See Note 1 in Notes to Financial Statements.
(b) Calculated based upon average number of units outstanding.
(c) Not annualized.
(d) See Note 3 in Notes to Financial Statements.

SEE NOTES TO FINANCIAL STATEMENTS.

1. Organization

The Commingled Pension Trust Fund (Extended Duration Fund) of JPMorgan Chase Bank, N.A. (the "Fund" or "JPMCB Extended Duration Fund") is a collective investment trust fund established, operated and maintained by JPMorgan Chase Bank, N.A. ("JPMCB" or the "Trustee"), under a declaration of trust. The Fund is a group trust within the meaning of Internal Revenue Service Revenue Ruling 81-100, as amended. Prior to entering liquidation, the Fund was available only to certain qualified and governmental retirement plans and collective investment funds and was not offered to the general public. The Fund is required to comply with the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended, and the Trustee is subject to supervision and regulation by the Office of the Comptroller of the Currency, as set forth in 12 CFR Part 9.

JPMCB, as the Trustee of the Fund, has claimed an exclusion from the definition of the term "commodity pool operator" under the Commodity Exchange Act (the "CEA") and, therefore, is not subject to registration or regulation as a pool operator under the CEA.

The Trustee approved a plan of liquidation on May 18, 2022. Effective July 27, 2022, the Fund ceased investment operations.

Prior to entering the liquidation period, the Fund sought to maximize total return and outperform the Bloomberg U.S. Long Government/Credit Index (formerly known as Bloomberg Barclays U.S. Long Government/Credit Index), gross of fees, over a market cycle, while maintaining total return risk similar to that of the Barclays U.S. Long Government/Credit Index.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 - *Investment Companies*, which is part of U.S. generally accepted accounting principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) disclosure of contingent assets and liabilities at the date of the financial statements, and (iii) the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Effective May 18, 2022, the Fund adopted the liquidation basis of accounting in accordance with GAAP. Accordingly, assets have been recorded at their fair value or estimated realizable amount, liabilities have been recorded at the present value amounts to be paid, and all other costs of liquidation and income expected to be earned through the end of the liquidation period have been accrued. Assets and liabilities were historically carried at values that approximated fair value.

A. Valuation of Investments — Investments are valued in accordance with GAAP and the Fund's valuation policies set forth by, and under the supervision and responsibility of, the J.P. Morgan Asset Management Americas Bank Fiduciary Committee ("AMA Bank Fiduciary Committee"), which established the following approach to valuation, as described more fully below: (i) investments for which market quotations are readily available shall be valued at such unadjusted quoted prices and (ii) all other investments for which market quotations are not readily available shall be valued at their fair value as determined in good faith by the AMA Bank Fiduciary Committee.

The AM Bank Fiduciary Committee serves as an oversight body to ensure that the actions taken by the Trustee with respect to the Fund comply with fiduciary responsibilities under 12 CFR Part 9 and other applicable law. The Trustee utilizes the J.P. Morgan Asset Management Americas Valuation Committee ("AVC") to assist the AM Bank Fiduciary Committee with the oversight and monitoring of the valuation of the Fund's investments. The AVC implements the valuation policies of the Fund's investments, as directed by the AM Bank Fiduciary Committee. The AVC oversees and carries out the policies for the valuation of investments held in the Fund. This includes monitoring the appropriateness of fair values based on results of ongoing valuation oversight including, but not limited to, consideration of macro or security specific events, market events, and pricing vendor and broker due diligence. The AVC is responsible for discussing and assessing the potential impacts to the fair values on an ongoing basis, and, at least on a quarterly basis, with the AM Bank Fiduciary Committee.

Fixed income instruments are valued based on prices received from approved affiliated and unaffiliated pricing vendors or third party broker-dealers (collectively referred to as "Pricing Services"). The Pricing Services use multiple valuation techniques to determine the valuation of fixed income instruments. In instances where sufficient market activity exists, the Pricing Services may utilize a market-based approach through which trades or quotes from market makers are used to determine the valuation of these instruments. In instances where sufficient market activity may not exist, the Pricing Services also utilize proprietary valuation models which may consider market transactions in comparable securities and the various relationships between securities in determining fair value and/or market characteristics in order to estimate the relevant cash flows, which are then discounted to calculate the fair values.

Equities and other exchange-traded instruments were valued at the last sale price or official market closing price on the primary exchange on which the instrument was traded before the net asset values ("NAV") of the Fund were calculated on a valuation date.

Investments in the collective investment fund established, operated and maintained by JPMCB ("Underlying Fund") were valued at the Underlying Fund's net asset value ("NAV") per unit as of the report date.

Futures contracts were generally valued on the basis of available market quotations.

B. Futures Contracts —The Fund used treasury futures contracts to manage and hedge interest rate risk associated with portfolio investments. The Fund also used futures contracts to lengthen or shorten the duration of the overall investment portfolio.

Futures contracts provided for the delayed delivery of the underlying instrument at a fixed price or were settled for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a futures contract, the Fund was required to deposit with the broker cash, or securities in an amount equal to a certain percentage of the contract amount, which was referred to as the initial margin deposit. Subsequent payments, referred to as variation margin, were made or received by the Fund periodically and were based on changes in the market value of open futures contracts. Changes in the market value of open futures contracts were recorded as Change in net unrealized appreciation/depreciation on futures contracts on the Statement of Operations. Realized gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, were reported on the Statement of Operations at the closing or expiration of the futures contract. A receivable from and/or a payable to brokers for the daily variation margin was also recorded on the Statement of Assets and Liabilities.

The Fund may have been subjected to the risk that the change in the value of the futures contract may not have correlated perfectly with the underlying instrument. Use of long futures contracts subjects the Fund to risk of loss in excess of the amounts shown on the Statement of Assets and Liabilities, up to the notional amount of the futures contracts. Use of short futures contracts subjects the Fund to unlimited risk of loss. The Fund may have entered into futures contracts only on exchanges or boards of trade. The exchange or board of trade acts as the counterparty to each futures transaction; therefore, the Fund's credit risk is limited to failure of the exchange or board of trade. Under some circumstances, futures exchanges may have established daily limits on the amount that the price of a futures contract could vary from the previous day's settlement price, which could effectively have prevented liquidation of positions.

The Fund's futures contracts were not subject to master netting arrangements (the right to close out all transactions traded with a counterparty and net amounts owed or due across transactions).

The table below discloses the volume of the Fund's futures contracts activity during the year ended August 31, 2022:

Futures Contracts — Interest:

Average Notional Balance Long	\$22,984
Average Notional Balance Short	26,461

C. Security Transactions and Investment Income — Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Securities gains and losses are calculated on a specifically identified cost basis. Interest income is determined on the basis of coupon interest accrued using the effective interest method which adjusts for amortization of premiums and accretion of discounts. Dividend income, net of foreign taxes withheld, if any, is recorded on the ex-dividend date or when a fund first learns of the dividend.

D. Federal Income Taxes — The Fund is generally exempt from Federal income taxes under provisions of Section 501(a) of the Internal Revenue Code. Accordingly, no provision for Federal income taxes has been made.

The Trustee has reviewed the Fund's tax positions for all open tax years and has determined that no provision for income taxes is required in the Fund's financial statements, in accordance with financial accounting and disclosure requirements for recognition and measurement of tax taken or expected to be taken on a U.S. income tax return. The Trustee's conclusions may be subject to review based on changes in, or the interpretation of, the accounting standards or tax laws and regulations.

3. Transactions with Affiliates

A. Investment Management Fees — Investment management fees are not charged to the Fund and accordingly, are not reflected within the Fund's financial statements. Investment management fees with respect to each unitholder are charged outside of the Fund at negotiated rates.

B. Other — The Fund invested in other collective investment trust funds maintained by the Trustee. Income earned on these investments, if any, is shown as Dividend income from affiliates on the Statement of Operations.

The Trustee pays for certain fund expenses on behalf of the Fund, including printing fees and fees for services provided to the Fund by JPMCB or its affiliates (custodial fees and fund accounting fees). The Fund pays other administrative and operating expenses, which include expenses for audit, tax return preparation, transfer agency, fees for maintaining the committed line of credit and other services provided to the Fund by third parties.

4. Line of Credit

JPMCB, in its capacity as the Trustee of the Fund, is a party to a 364-day \$375 million secured committed line of credit ("Credit Agreement") with The Bank of Nova Scotia, in its capacity as Lender, Administrative Agent, and as Lead Arranger and Sole Book Runner ("Scotia"), and the other lenders from time to time party thereto (collectively with Scotia as a Lender, the "Lenders"), dated May 27, 2016, as the same may be amended and renewed from time to time. Under the Credit Agreement, the Lenders agreed to provide a loan to certain commingled pension trust funds maintained by JPMCB, including the Fund. Proceeds of each loan under the Credit Agreement may be used only for temporary or emergency purposes (including to satisfy redemption requests). Under the terms of the Credit Agreement, a borrowing fund must exceed certain adjusted net asset coverage ratios prior to and during the time in which

any borrowings are outstanding. If a borrowing fund does not comply with the aforementioned requirement, such fund must remediate within three business days or the administrative agent at the request of, or with the consent of, the Lenders may terminate the line of credit and/or declare any outstanding borrowings to be due and payable immediately. The interest rate on any loan under the Credit Agreement is payable at a rate determined in accordance with the Credit Agreement.

The Fund had no outstanding borrowings from the line of credit at August 31, 2022.

5. Indemnifications

In the normal course of business, the Fund entered into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown. The amount of exposure would depend on future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expected the risk of loss to be remote.

6. Transfer In-kind

During the year ended August 31, 2022, certain unitholders sold units of the Fund. The portfolio securities were delivered primarily by means of a redemption in-kind in exchange for units of the Fund. Cash and portfolio securities were transferred as detailed below:

	Date	Gain/ (Loss)	Value	Type
	July 27, 2022	\$ (12,415)	\$ 99,021*	Redemption in-kind

* This amount includes cash of \$196 associated with the redemption in-kind.

7. Subsequent Events

Management has evaluated all subsequent transactions and events after the balance sheet date through November 10, 2022, the date on which these financial statements were available for issuance and has determined that no additional items require disclosure.

STATEMENT OF ADDITIONAL INFORMATION FOR THE YEAR ENDED AUGUST 31, 2022

(Dollar values in thousands)

Investments Purchased	Cost
Corporate Debt	\$ 8,381
Short-Term Pension Trust Funds (a)	29,098

(e) Amount includes \$37 of (amortization)/accretion of income.

(f) Amount includes \$(555) of (amortization)/accretion of income.

Report of Independent Auditors

To the Board of Directors of JPMorgan Chase Bank, N.A.

Opinion

We have audited the accompanying financial statements of JPMCB Extended Duration Fund (the “Fund”), a Commingled Pension Trust Fund of JPMorgan Chase Bank, N.A., which comprise the statement of assets and liabilities (in liquidation) as of August 31, 2022 and the related statements of changes in net assets (in liquidation) for the period from May 18, 2022, through August 31, 2022, the statements of operations and of changes in net assets for the period from September 1, 2021 through May 17, 2022, including the related notes, and the financial highlights for the period from September 1, 2021 through May 17, 2022, including the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (in liquidation) of the Fund as of August 31, 2022, the changes in net assets (in liquidation) for the period from May 18, 2022 through August 31, 2022, and the results of its operations, changes in its net assets and the financial highlights for the period from September 1, 2021 through May 17, 2022, in accordance with accounting principles generally accepted in the United States of America applied on the bases described in Note 2.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

As discussed in Note 1 to the financial statements, the Trustee of JPMCB Extended Duration Fund approved a plan of liquidation on May 18, 2022, and the Fund determined liquidation is imminent. As a result, the Fund changed its basis of accounting on May 18, 2022, from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The statement of additional information for the year ended August 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.
